

## ATEQ TPMS Tools Now Includes 25 Languages For Global Customers

*Livonia, Michigan (10/1/2018)* - ATEQ TPMS tools have improved their future-proof TPMS diagnostic tool technology by adding several languages. ATEQ's tool software now includes 25 languages using unicode font to add characters for languages such as Chinese, Greek, Japanese, Korean and Russian.

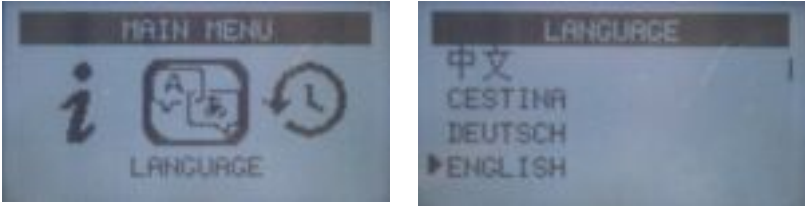

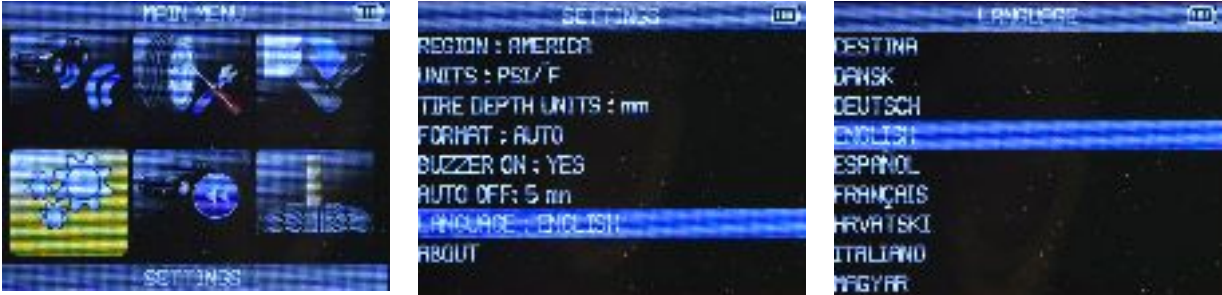

Since the launch of each ATEQ TPMS Tool, ATEQ's engineering and development team have continuously improved and evolved the tool's software with bi-monthly updates. Without the need to purchase additional tools, hardware or accessories to keep up with the fast-paced TPMS market, customers can simply update their TPMS tool to get the latest functions and features. With the highest quality hardware and software built-in, customers prefer ATEQ-powered tools, making ATEQ the number one TPMS tool brand worldwide.

Languages offered on ATEQ TPMS tools such as the VT56, VT36, and "Powered by ATEQ" tools since the August and September 2018 software update releases include:
